

SOMYAJEET SINGH

Full-Stack and Python Developer

Navi Mumbai, India

+91 9871034824 somyajeetsingh15@gmail.com github.com/ssgamingop somyacodes.in

Summary

Full-Stack and Python Developer specializing in intelligent systems and geospatial analytics platforms. Experienced building scalable applications combining modern web frameworks, machine learning pipelines, and satellite telemetry.

Education

B.Tech in Computer Science (AI & ML)

ITM Skills University — Navi Mumbai

Expected Graduation: 2029

Relevant Coursework:

- Data Structures
- Database Systems
- Machine Learning
- Neural Networks

Certifications

Python Developer Certification

freeCodeCamp — Feb 2026

Completed 300 hours of coursework covering Python programming, algorithms, and application development.

Skills

Languages

Python • TypeScript • JavaScript • C++

Frontend

React • Next.js 15 • Vite • TailwindCSS • MapLibre

Backend

FastAPI • Node.js • REST APIs • SQLite

AI / Geospatial

Google Earth Engine • ML Pipelines • Satellite Data

Tools

Git • Docker • FFmpeg • Vercel

Projects

SentinelIQ

Feb 2026 – Present

- Architected a full-stack geospatial platform using FastAPI and Next.js 15 for disaster monitoring.
- Built a flood-risk engine using Google Earth Engine(GEE) satellite telemetry and NDWI analysis.
- Developed MapLibre-based geospatial visualizations for environmental analytics.

Terminal Portfolio Website

Jan 2026 – Present

- Built a terminal-style developer portfolio using TypeScript, Vite, and TailwindCSS.
- Implemented a custom command parser and JSON-driven configuration system.

AR Kite Simulation

Nov 2025 – Dec 2025

- Created a Python simulation modeling kite motion using physics-based dynamics.
- Implemented real-time visualization of aerodynamic movement.

Python Music Visualizer

Sep 2025 – Oct 2025

- Built a real-time audio visualizer using Librosa and Pygame.
- Implemented spectrum analysis with reactive particle visualizations.
